Completion report of the Certificate/Addon course on Disaster management by 9/2B NCC unit Karimpur Pannadevi college and in Collaboration Disaster Management cell, SDO, Tehatta, Nadia

Let me have the honour to publish the completion report of the initiative taken by the 9/2B NCC unit, Karimpur Pannadevi College for organizing a successful add on course on Disaster management for the students of our college. It was organized in collaboration with Disaster management cell, SDO, Tehatta, Nadia. This is really exceptional academic event arranged with the major collaboration of Government of West Bengal. NCC Unit, 9/2B has always trying to infuse quality soft skill to our stakeholders for their all-round development. This add on course was designed for 6 days and the class hour was 30 hours. Almost 25 students have enrolled and finally get their certificates also. The resource persons were provided by the SDO, Tehatta,, Nadia and monitored by the college. The add on course is organized through offline mode. Students are satisfied with the flexible schedule of the course and cooperation from the organiser. Hope next year the response will be more better in this regards and our goal will be fulfilled.

I am sure the course is definitely infuse some skill in this regard and trained them how to tackle the condition specially in time of natural calamity, earth quake, flood or any unwanted situation. It should be continued for the upcoming year also.

Completion report of the Certificate/Addon course on Spoken English by IQAC and in Collaboration Resonanz Career

Let me have the honour to publish the completion report of the initiative taken by the IQAC, Karimpur Pannadevi College for organizing a successful add on course on Spoken English for the students of our college. It was organized in collaboration with Resonanz career, a reputed institute in this field. IQAC has always trying to infuse quality soft skill to our stakeholders for their all-round development. This add on course was designed for 4 months and the class hour was 30 hours. Almost 30 students have enrolled and finally get their certificates also. The resource persons were provided by the Resonanz Career and monitored by the college IQAC. The add on course is organized through online mode. Students are satisfied with the flexible schedule of the course and cooperation from the organiser. Hope next year the response will be more better in this regards and our goal will be fulfilled.

#### **Overview**

Operating System is defined as a collection of programs that coordinates the operations of computer hardware and software. It acts as a bridge for the interface between man and machine. Examples of Operating System are: Windows Linux BOSS etc.

### Why is operating system important?

It manages the computer's memory and processes, as well as all of its software and hardware.

It also allows you to communicate with the computer without knowing how to speak the computer's language.

## What is the main role of operating system?

An operating system (OS) is software that controls the computer's hardware and software resources. It allows applications to interact with the hardware on a computer. Some software can interact with hardware directly, but most software isn't written to interact with each particular piece of hardware — the operating system therefore takes care of interacting with the hardware.

Operating systems were first developed in the late 1950s to manage tape storage

The General Motors Research Lab implemented the first OS in the early 1950s for their IBM 701

In the mid-1960s, operating systems started to use disks

In the late 1960s, the first version of the Unix OS was developed

The first OS built by Microsoft was DOS. It was built in 1981 by purchasing the 86-DOS software from a Seattle company

The first OS built by Microsoft was DOS. It was built in 1981 by purchasing the 86-DOS software from a Seattle company

The present-day popular OS Windows first came to existence in 1985 when a GUIN was created and paired with MS-DOS.
