Introduction:- This is a customized and summarized report on the concluded online certificate course titled as "Online Resources: How to Use and What to use?" from 16th June to 23rd June,2021.

This particular course is the first of its kind organized by Dept. of Library of the college. The report contains the synthesis of the proceedings, communications, evaluation processes and feedback of the participants.

Justification of the Course:

This course tried to frame in such a way so that, participants can understand the ongoing opportunities happening in digital space. In this era, many organizations are creating digital contents for different purposes, but here, we tried to bind only those contents those having great academic value. Information professionals always try to retrieve information from different resources which are either guarded by payment wall or Open Access. Many opportunities are being made globally as per guidelines on United Nations Development Plan, by their setting up plans and goals, many organizations (Government Body, Academic Associations, Companies, Non-Profitable Organizations etc.) are creating digital delivery platforms for both Open Learning and Paid Learning options. During this Covid period, everyone could understand the power of digital services and the students can also avail of the opportunities to learn different subjects through different learning platforms. This course gave unique opportunity to know about MOOCs, Learning Objects, Learning Management Systems, information services, Information Management Tools, Online services for Competitive Exams and also online earning opportunities. As this college is situated in a remote rural area, students can't access the physical opportunities from the big city and also can't get all the required resources which are necessary to build up career in future. Keeping this in mind, the department have undertaken to organize such events which can enable themselves to sharpen their skills and build up career properly in future.

This course was conducted in online mode using the facility of Google Meet and Google Classroom and a strict evaluation process was kept to judge the quality of learning among them. The participants, who have completed all the evaluation steps, have received certificates from our end.

Students' Suggestions to make such event better in future:

Yes
Job
Ok
Offline session for better experience.
No
It is better to improve the quality of sound.
The long course like 4 week is more better than 30houurs . My suggestion is to organize a long and more informal relevant course like this.
এই কোর্স টা আরও অনেক ভালো হবে অনেক কিছু পরিবর্তন আনতে পারে
It's a very good initiative. I hope in future our college will provide us so many courses like this. Just wait for next courses. Thank you Karimpur Pannadevi College. Thank you all.
To make this certificate course better in the future, we should discuss the certificate course and spread it among students and teachers.
আমি চাই পরবতীতে এর থেকে আরো ভালো হোক ।
Go forward
This course will be of great help to us in the future.

Yes ...
Everything is excellent.
Student
All Students try this course
Conduct more courses like this and circulate among more students.
Yes..This Course is very helpful for my future study
If the time will be broader then i think this will more helpful to us. Two session in a day is tough to understand, so if there is only one session in a day it would be better.
অবশ্যই আমি চাই এই রকম ভাবে নতুন কিছুর সম্মুখীন হতে
Internet issues
Adds some more instructive topics.
If the time will be broader then i think this will more helpful to us.
All you have to do is more than enough for us. Thank you all for providing us such a great course. Thank you all
Quiz for interesting math
The type of course is much better now
Think latter
Good job
The course is all over very good.
We need to do such a course later
