About the Webinar (Context and Objectives)

Our country is on the threshold of the completion of her 75 years of Independence, but even today, as per the different parameters of sustainable development (defined by national and international organizations) we are not at all at a desirable stage. Among the different shortcomings the socio-economic status of the women folk of the nation is still a matter of grave concern. In spite of framing various laws, rules and commissions for their development and security, they are still vulnerable to deprivation and assaults. In terms of MMR, violence against women, social and economical equality, their situation is still lagging far behind any positive outcome when compared to that of some developed nations. So at this juncture, the Women Welfare Cell of Karimpur Pannadevi College has arranged discourses before the stakeholders to delineate the bleak reality of the so called Women Space of our nation today.

The women counselling cell of the college which is very vibrant and effective to take care and monitor all the issues related to Girl students has taken an initiative to review the Liberty, Laws and the security of women in our society and country at large by arranging several discourses, online & offline, to share different aspects of various rules to ensure the socio-economic liberty of women of our nation and create an awareness on such issues of women emancipation among our stakeholders who are the future hope of our country.
